

Green IT Systems Group is an **SBA** approved **8(a)** joint venture between AASA and DIGICON to provide Information Technology (IT) Service Management solutions. Our combined capabilities include Systems Management, Infrastructure/Cloud, Application Development, and Bioinformatics.

Green IT also provides virtualization services in order to assist clients with meeting cloud and environmental mandates. Green IT assists Federal agencies, state and local governments, and commercial organizations with the assessment, planning, and implementation of virtualization solutions throughout the IT infrastructure. By consolidating services and facilities, managing storage and data, and using the benefits of the cloud, Green IT can help clients reduce costs, lessen environmental impact, and streamline the enterprise.
